

Vantage Capital Markets to Join TP ICAP Group, Expanding Global Reach and Capabilities

Vantage Capital Markets (VCM) is pleased to announce that it has agreed to be acquired by TP ICAP, a world leading provider of market infrastructure.

This partnership represents an exciting new chapter for VCM. By joining TP ICAP, we strengthen our ability to serve clients globally, combining our deep expertise in equity derivatives and fixed income brokerage with TP ICAP's extensive network, scale, and technology. Together, we will enhance liquidity access and execution quality across all major financial centres.

Operating from London, Hong Kong, Tokyo, and Dubai, VCM has built a reputation as a trusted intermediary for institutional clients worldwide. Our experienced team of more than 80 brokers will continue to deliver the same high standards of service and insight that our clients rely on — now with the added advantage of TP ICAP's international platform and resources.

Completion of the acquisition remains subject to regulatory approvals.

As part of TP ICAP, we look forward to broadening our reach, deepening our relationships, and continuing to connect markets and opportunities for our clients across the globe.
